#### NOTICE

Regular monthly meeting of the Spacecraft Research Association will be held at the Odd Fellows Hall, 1325 N. 14th Street, Phoenix, on February 17th. Social hour will be held at 7:30 p.m., followed by the business meeting at 8:00 sharp.

No announcement can be made at this time regarding the program to follow the business meeting, as arrangements are not complete at this writing. But if it materializes as planned, it will be of unusual interest to all members. Plan to be there!!

Please note; You will not receive a special notice of the February meeting. **THIS IS IT!**

#### WELCOME TO NEW MEMBERS

The following are new members of the S.R.A.:

Mrs. Ellen Botsford, Phoenix  
David Spangler, Phoenix  
Ruth Waite, Glendale

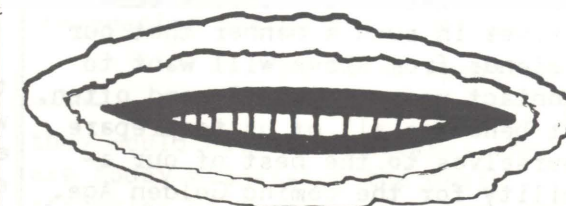

May your membership in our group be both pleasant and enlightening.

#### CHANGE OF ADDRESS!

Our New mailing address is as follows:

SPACECRAFT RESEARCH ASSOCIATION  
P. O. Box 4444  
Phoenix 30, Arizona

Please change your records to show this new address so all mail will reach us promptly. For the convenience of our correspondents we hope to make this address a permanent one.

#### MARCH MONTHLY MEETING

Regular monthly meeting will be held at the Odd Fellow Hall, 1325 N. 14th Street, Phoenix, at 8:00 P. M. Social hour at 7:30 for the early arrivals. No program can be announced at this time, but you will receive more details at a later date.

## A MESSAGE

From Your  
NEW  
PRESIDENT

For the benefit of those members not present at our December Election Meeting, I would like to repeat some of the ideas expressed in my acceptance speech.

I have heard it said lately that the work of the Spacecraft groups is through - that they have served their purpose. I do not agree with that thought. I think we have only begun to fulfill our purpose. Not until everyone on Earth is expressing the perfect Christ-Consciousness can we say our objective is fulfilled.

Also, I have asked every member or anyone reading these lines to invest two to five minutes per day in prayer for our Spacecraft groups. Pray for perfect harmony within our own group, and that all officers will be divinely inspired to carry out and fulfill their duties to the best of their abilities. The suggested time is 10:00 P. M. However, any time will do if that is not convenient.

Any member or friend of the S.R.A. is invited to send in their constructive criticism to myself or any appropriate officer of the group. Let's all conduct ourselves in such a manner that our Friends from Above will want to contact us more readily and often. It behooves all of us to prepare ourselves to the best of our ability for the coming Golden Age.

*Jack R Myers*

## HUMOR

If you don't believe in flying saucers, try tickling a waitress carrying a load of dishes!

## DECEMBER MEETING

At the regular monthly meeting held on December 16, election of officers for the coming year was held. Following the election, President-elect Jack R. Myers in his acceptance speech outlined proposed objectives for the coming year. (For a complete list of new officers see inside front cover.)

## JANUARY MEETING

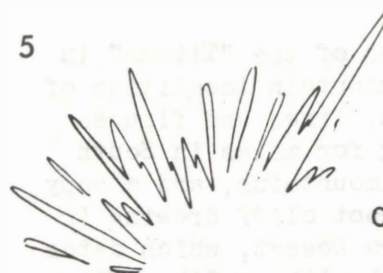

First monthly meeting of the New year was held January 20, 1961 with our new officers presiding. Following the business meeting, reports were presented by members on the Cosmon Research Foundation of California, the Mark-Age Group of Florida, and The Little Listening Post, edited in Washington, D. C.

## MICHAEL X LECTURE

First of the 1961 series of lectures to be presented by the S.R.A. will be given by Michael X, noted author and lecturer, who will speak at the Odd Fellows Hall on February 4th on the subject of "1961 World UFO Predictions". He will also speak on Sunday, February 5th, at the home of President Jack Myers. His subject there will be "The Invincible Man."

Due to deadline dates, we are unable to bring you a complete report, but we are sure all those who attended either or both of these lectures has gained in knowledge and understanding.

## FIELDS

## OF VIBRATION

"The Earth is travelling through fields of increasingly higher vibrations, which will bring about a cataclysmic cleansing of our Planet!" How often we who are interested in Spacecraft have heard these words expressed in New Age lectures and literature. By now most of us know that effect these fields of vibration are having on our world. However, they also have an effect on the individual.

These regions of ever-rising cosmic-ray bombardment are divided into levels, each having a higher vibratory rate than the preceding one. As our planet enters a new level of energy, because our bodies are unaccustomed to the increased vibrations, we feel fatigued and negative. Then, as our bodies become acclimated to the new energy level and we attain a state of balance or compatibility with the stronger energy bombardment, we feel exhilarated and in harmony with all creation. Our body, mind, and spirit seem to possess more vitality and alertness. Then the Earth moves into the next energy level, and again we feel run-down and negative because of the more intense vibrations.

As we become accustomed to each successively higher field of vibration, we progress spiritually, eventually reaching a spiritual state where increasing cosmic energy bombardment ceases to affect us. There are no more "dips of negativity". We keep advancing physically, mentally, and spiritually, paving the way for entrance into the New Age, and eventually, into the Christ Consciousness.

Many of those unable to stand the increasing vibrations will either become insane or will die of diseases caused by bodies not able to cope with higher vibratory frequencies.

What can one do to help himself to withstand the rising vibrations? My friend, the power to best help each person survive ill-effects of these energy levels is within himself. This is a spiritual force which can be brought into use through prayer and meditation. Also, right living, eating pure, healthy foods, and getting enough rest, will strengthen one's body. Searching for true knowledge, and an aversion to negativity will strengthen the mind and spirit.

Remember, though, that what may help one person may perhaps hinder another. Each individual must discover for himself and utilize that which will best help him to progress and withstand the increasing energy bombardment.

## LETTER TO THE EDITOR:

The following letter has been received from "Anonymuos":

I am happy to congratulate you on the big change you have made in the Spacecrafter....to delete the name...of all other known communists would be an improvement. Also we have reliable information that Russia is not as far ahead of the U.S. in many scientific achievements as

they would have us believe....We are today witnessing the death struggles of a once sovereign nation. Our freedom hangs in the balance. The enemy has control of our gold, our political parties, our congress, our Supreme Court, the Press, and with the income tax and Social Security Tax they hold a sword over the head of every individual from the cradle to the grave.

As an Editor we think you should know these things....

Whether other worlds can be inhabited was discussed by Don Dederer in his January 19th column "Coffee Break" printed in the ARIZONA REPUBLIC, and Truman Betherum of Prescott, who was described as "Arizona's foremost flying saucer expert" was quoted extensively.

Dederer called the issue "...the brawl scientists are having over life on other planets", with one side being sure other worlds must be inhabited, while the other argues that only earth can support life as we know it.

Betherum's experiences with the inhabitants of a spaceship and his subsequent books written about them are numerous described in some detail. In conclusion Dederer states, "...until the scientists close ranks, I'm throwing in with Betherum. He had enough sense to get a woman in his story."

"The Open Letter", of December, 1960, put out by the Planetary Center, located in Detroit, carried an article from the September 1960 issue of Australian Flying Saucer Review entitled "Did Ancients Meet Spacemen?" by Alexander Kazantsev, a Russian scientist and writer, which was received in reply to a letter written to him by an Australian UFO student.

In this article Mr. Kazantsev refers to the Bible, which he says can be interpreted in a new way if one remembers that visits of cosmonauts might have left traces in the memories of ancient peoples and thus be found in their legends and books. He also states another Soviet scientist, Agrest, believes Sodom and Gomorrah were destroyed by nuclear weapons.

Mr. Kazantsev gives several examples of what he considers existing traces of such visits to earth, such as the Baalbek Verandah in the Anti-Lebanon,

structures of the "Titans" in various mountain localities of the Earth, lines and figures extending for miles in South American mountains, and a copy of a 20-foot cliff drawing in the Sahara Desert, which dates back to the 6th or 7th millennium before our era. Persons observing this drawing in the Louvre in Paris readily recognize the "man in the space suit."

Mr. Kazantsev also discusses the Incas of Central America, whose state was organized by what they described as the "sons of heaven", and who were some day supposed to return. In conclusion, he states, "...I can conceive of the possibility of such a visit. Are not we, too, planning to visit other planets in the very near future?"

For years man has contemplated the possibility of life on other planets. For the most part this has been idle speculation. Ann Ewing, writing in Science News Letter, expresses the opinion that, now that space travel is close to being a reality, the discovery of life, even mosses or lichens on another planet would have profound and earth-shaking repercussions.

How earth-shaking would depend upon one's concept of the nature of the Universe and the Power that created it. There is no reason to assume that the God that created ALL would limit his expression of life to one small insignificant planet - Earth.

A news release from UNDERSTANDING Headquarters, Pasadena, California, states that an extensive program to bring about greater understanding of the problems that face mankind, and to search for true and practical solutions to these problems through social spiritual and scientific research is being launched by Understanding, Inc. This program is to be carried out in several ways, by public lectures, workshop sessions, and annual regional conventions or pageants.

It was also announced that Dr. Daniel W. Fry, founder and chairman of the board of Understanding, Inc. has been listed in the 1961 volume of "Who's Who in California".

THANKS!

A note of appreciation to all those who have contributed either to this issue of the Spacecrafter, or to past issues, especially to those living in other areas who have mailed us clippings from their local papers. ## BOOK REPORT

### OPEN THE DOOR

By Wilfred Brandon, transcribed  
by Edith Ellis

For an inspiring description of what life can be on the Etheric Plane, don't miss reading this fine book. While not recently published, because of its popularity there have been several editions, as all of us want to know how to be better prepared for the life awaiting us in the "beyond".

In his "Foreword" the author writes, "This is an attempt to show mortals the Science of Life and its manifestations on the Etheric Plane...to clarify in some degree, the mystery known as "death", which is but a rebirth into a more attenuated form of matter." He writes there are three degrees of matter known on his plane as a vehicle for man's mind. The one we know of is dense matter - flesh, blood, and bone, which is inhabited by the second, or Etheric body, which can influence and guide the fleshly body. Third is the Spiritual body, still more attenuated, which in turn inhabits the Etheric form and contains the Soul, or higher self, described as the seat of the mind and memory. These three degrees of man are connected by a cord binding this three-fold body into a unit. Those coming back to the Etheric Plane from the Spiritual Plane tell of other planes still more highly evolved, and that Jesus the Christ was thought to be from them.

Brandon is a Master in the White Brotherhood, a group of about 10,000 highly advanced souls who have dedicated themselves to scientific study, and to efforts to tell souls coming to the Etheric Plane how to use their potential powers. He decries anything that negates the will power on our plane and feels

'SOMEBODY UP THERE'

Space Message Told Of Moonshot Failure

NEW YORK (UPI)—A bachelor Brooklyn bookbinder said today he was able to predict the failure of the U.S. moonshot this morning through messages he received from intelligent life from outer space.

"In other words, there's somebody up there. And they are trying to tell us things, but they can't send a telegram or pick up the telephone," said Alex Basewic, 40, in a telephone interview.

Basewic sent his own telegram yesterday to Cape Canaveral, Fla. The telegram was made public there before today's Atlas-Able rocket which carried the moon satellite blew up 2 minutes after blasting off the pad. Basewic's telegram said:

"DEAR SIR: NASA plans today to send an Atlas-Able rocket to the moon. It will fail. This was revealed by message from intelligent life in outer space. This is no hoax."

"So how did I know this," Basewic said. "From the signals. There is a code which I study for 10 years and now I have it 80 per cent correct. The signals are radio directed accidents and the code is numerical, or mostly numerical.

"In this particular time, they used certain combinations of letters, too, like 'AT' for Atlas and 'A' for Able and 'M' and 'L' for moonshot. You understand."

WITHOUT pausing to permit an interruption, the Hungarian-born Basewic rolled on.

"These intelligent beings, this life, must know all that is going on in the earth. They predict the Russia Sputnik, the United States rockets, and the Algerian war."

Was there any danger of invasion from outer space? he was asked.

"I have a theory that they have invaded already. They are here now. I'm not so sure, but I have a theory. They

probably are reacting to all our rockets and satellites. For thousands and thousands of years we stayed here and suddenly we fire these things into the air.

"THEY ARE upset, they take counter measures because we invade their domain," Basewic said he did not know where this life comes from exactly but he suspects the planet Mars is their home base.

Basewic would offer no predictions on future events, except that the policies of President Charles de Gaulle would ruin France.

"This year alone I had 30 predictions, but I am afraid to make them all known, because all these people will say the man is crazy.

"Nobody believes, nobody ever believes," he said.

Sudan Villagers See Flying City

KHARTOUM, SUDAN (UPI)—Maybe it was just a mirage but four villages in western Sudan think they saw a city flying through the air the other day.

Khartoum newspapers printed reports from Abuza-bad that the villagers saw the city "complete with high buildings and trees" sailing slowly through the air last week.

Authorities here said they were investigating.

BRIGHT FLASH

Arizona Sky Lighted By Fireball

A fireball flashed across the sky north of the Valley at about 5:20 a.m. today.

Its light was reported so brilliant it brightened the inside of an airplane cockpit and lit up the inside of a truck.

VARYING reports were given on the color of the sky fireball, assumed to have been a meteor, and also on its direction of travel.

Blue to red, blue with a white tail, green and red-orange were the colors told by viewers.

Flight control tower at Sky Harbor Airport observers said those on duty saw the meteor-like object to the north of Phoenix, very bright, blue in color at the start, then, as it dissipated, turning to red. It traveled low above the horizon, from southwest to northeast, according to those in the tower and the airplane pilot.

THE LIGHT lasted 10 to 20 seconds, according to tower reports.

Francis Statas, 6737 N. 34th Ave., driving a truck from Buckeye to Phoenix, said he saw the ball of fire, with a flaming tail, from Liberty at 5:25 a.m. It lit up the inside of his tractor, he said, and lasted about 2 seconds.

Mrs. Richard Siegrist, 3035 E. St. Johns Rd., saw the color as white-blue, the travel from west to east, lasting four or five seconds.

Frank Cook, 4028 E. Oak, reported the color as red-orange. Some persons in the Phoenix area, looking north, reported northwest to south travel.

Blaze In Sky Brings Calls From Public

A LARGE object, variously described as bright blue and red, was seen falling from the skies west of Phoenix about 6:04 p.m. yesterday.

Observers at Sky Harbor Airport control tower said the object apparently was a large meteorite.

SCORES of telephone calls came to The Arizona Republic from 6:05 to 7 p.m., telling about the falling object.

The airport tower said the object was red and blue.

Bill Graves of 1014 E. Harmont Dr. said he saw a bright blue light heading toward the earth at a 20-degree angle at about 5,000 feet above the ground. He was traveling north on 16th Street and said the light was moving northeast.

JOYCE Hungerford of Cactus said the object was white with a bluish tint and showed about a second before exploding. Joyce, 14, is an eighth grade student interested in astronomy.

A report of a second burning object came from Cullen Moore, an engineer at Motorola. He said at 6:50 p.m. he saw a bright blue object about 20 degrees west while he was driving along Indian School Road. He said the light seemed to be speeding straight down.

A giant ball of fire, apparently the same object as was seen in the Phoenix area, flashed across the horizon at dusk last night and lighted up much of California, alarming thousands of residents.

Reports of sightings came from San Diego on the Mexican border, where Coast Guard planes were dispatched to investigate the mysterious fireball, to Marin County north of San Francisco.

Meteorologists at Las Vegas, Nev., also sighted it.

COASTAL points reported the object continued its flight out to sea.

Navy Discovers New Radio Relay System

WASHINGTON (AP)—The Navy has found a way to send low-powered radio signals over long distances, opening up the possibility of a new type of worldwide communication system.

The system involves pumping the signals through electrically charged ducts in the sky, like hot air moving through furnace ducts.

The Navy, in announcing the breakthrough, said it had successfully transmitted radio signals 2,600 miles from California using a 100-watt transmitter. It gave off signals which normally would have a range of 575 miles.

But the ducts still are somewhat of a mystery. The Navy said its knowledge of the atmosphere phenomenon is limited.

"We assume it was a meteor breaking up," said a spokesman at the Civil Aeronautics Traffic Control Center in Los Angeles. "But it looked like a satellite re-entering the earth's atmosphere."

AIR FORCE Maj. Irv Neuwirth, a member of the ballistic missile division, said he saw the tail end of the fireball as he drove into his driveway.

"It just looked like a meteor to me, maybe one that was breaking up. But it was bright, brighter than anything I've seen."

## Expert Hits 'Wild-Eyed' Theories Of Planet Life

NEW YORK (UPI) — One impact space science has had upon scientists generally is to make some of them a little wild-eyed.

This was the gist of an address yesterday at the annual meeting of the American Association for the Advancement of Science by a scientist who says he isn't going to be taken in by some of the more wild-eyed theories.

Dr. Philip H. Abelson, director of the geophysical laboratory of the Carnegie Institution, Washington, took aim at those who hold there could be life on other planets besides earth.

Mos. definitely there can't be he said, and he included the moon as well as the other planets. Those who hold otherwise, he said, "have ignored the realities of the lunar and planetary environments" and known biological facts.

He spoke of life only as we earthlings understand the term. Perhaps there could be life radically different from the life we know, he said, for anything is possible until it has been proved impossible.

BUT "LIFE AS we know it is subject to many limitations," he said. It can neither reproduce nor sustain itself at temperatures only a little below freezing, and only a few organisms can multiply when the heat approaches 212 degrees F.

Some scientists have suggested life could adapt itself to sustained

high temperatures, but how could it, asked Abelson, when the base chemical molecules of earth life "degrade at a very rapid rate at temperatures above 212 degrees?"

"During the past 500 million years, Mother Nature has conducted countless experiments in an attempt to produce a metazoan which does not require oxygen for metabolism," he said.

A METAZOAN is an animal with many cells which are differentiated into tissues and organs.

"All these experiments have failed," Abelson said, "and the results indicate that the familiar terrestrial biochemical plan of life is intrinsically incapable of producing a metazoan that can survive indefinitely in the absence of oxygen."

Abelson was willing to hedge the least bit on there being no life on Mars. But if there is, he said, it certainly isn't like earth's life and there positively are no Martian metazoans — much less men from Mars.

## FLYING SAUCER SPOKESMAN POSES PERMISSION APPROVAL

By EDDY GILMORE

LONDON (AP) — A spokesman for the British Flying Saucer Society said today that before the Soviets—or anyone else—try to put a man on a planet they'd better get the planet's permission.

"We've been informed by the cosmic masters," said William Mayhew in an interview, "that earth men will not be allowed to land on other planets."

Mayhew, a lawyer, and 700 other members of the society have been attending Britain's first National Flying Saucer convention.

During their two-day session in London they said they established contact with a spokesman on Mars through one of their officials, George King.

King went into a yogi trance and said a Martian spoke through him. He recorded the message purportedly from Mars. The message apparently directed at the leaders of East and West—was broadcast through the convention hall.

The delegates listened in respectful silence as the "master on Mars" said: "Unless much ground is given by both sides alike—"

Here the spokesman was interrupted by what sounded like a very earthy cough. Delegates were unable to say if the cough was King's or the Martian's.

"If you go on as you are at the moment," the voice went on, "fostering suspicion, arguing and boasting about your latest weapons, then a conflict will most surely come."

The voice said the conflict would take place between 1963 and 1964.

## FLYING CITIES ? ? ?

On page 8 of this issue is a short news article contributed by James Wardle of Salt Lake City, telling of four villages in the Sudan whose inhabitants reported seeing what they described as "flying cities".

This writer has some personal knowledge of the Etheric Plane, gained from visits there while he lay unconscious after a serious accident. On these trips cities were seen which stretched out for miles on end and reached to astounding distances.

While it can be doubted that actual flying cities exist, each of these villages could have seen a portion of the same city materialized from the Etheric Plane. It is a proven fact that objects as well as souls from that Plane have at times been visible to Earth people. So when atmospheric and vibratory conditions were just right, it is conceivable that appearance of a complete city could occur.

Some on the Etheric Plane have in recent communications said they soon expect to communicate directly with us by radio. Already thousands are in contact through mental or thought transference. All these phenomena are happening more and more often these days as we enter into higher vibrations. Why shouldn't a visual appearance on such a large scale be possible?

## BOOK REPORT (cont'd from p.7)

the world of today is regressing, because of our surrender of civil liberties to the "Welfare State."

Brandon was a soldier in four previous reincarnations and has gained a horror of war from seeing what effect Death on the battlefield has on soldiers reaching the Hereafter when their souls have been thrust out of the body violently. It is a state of consciousness that makes not only their life, but of those around them on that Plane a hell for many years to come. Brandon states efforts to help victims of World War I has made life there a veritable hospital while souls are taught to forget, and he gives strong warnings of the effects of another war (which has since happened???)

Brandon states "Life can be, and should be, a glorious evolution." Descriptions are given of what happens to the soul when death comes more naturally. Sleep is not required, the sense of time disappears, and the only food required is nourishment obtained from the ether.

The Etheric body lacks the senses of touch, taste, and smell, but can see and hear. It has a delightful feeling of well being, and makes only one demand—it must be clothed. With no materials as are known on Earth, clothing is created by thought. Since each soul tends to clothe itself in the fashion it knew on Earth, the length of time spent on the Etheric Plane can easily be told by the style of dress. In addition, each soul is surrounded by an aura, which can be very beautiful. Nothing can be hidden because each is known for what he really is because of the emanation about him.

Some aspects of this Plane are described as being a "Hell". Narcotic victims are called "the nearest things to lost souls that we know of." Their will-power has been virtually destroyed, so they

## Flying Saucer Era 'Over'

WASHINGTON (UPI)—The U.S. Air Force, with a hopeful glance into the wild blue yonder, yesterday declared an end to the flying saucer era.

Lieutenant Colonel Lawrence J. Tacker, an air force information officer, said he feels "the flying saucer era is similar to the Great accent on spiritualism which took place at the turn of the century."

"I believe that the public will find some other romantic subject to become imbued in and go on to it, rather than flying saucers

We're becoming used to space and it looks as though we're going to put a man into space real soon and I think this will really signify the end of the so-called saucer era."

Tacker is the author of a new book entitled "Flying Saucers and the U.S. Air Force," which states the service's official position on the little men it says weren't there.

He said he air force does not deny the possibility of life on

other planets nor the possibility of a visit from outer space.

"What we say is that to date it has not happened," he said.

Tacker said that the number of unexplained sightings has dropped to 2 per cent of the total flying saucer reports in the last five years.

He denied that the air force is withholding any information on the subject and said air force regulations specifically state that saucer reports must not be classified.

## ON THOUGHT

The "Brothers" have told us many times, through innumerable channels, that Man must look to his thoughts. They have said: "Man is a creator, he creates constantly. He creates situations and conditions, and is less than happy with the results." And the rather worn statement: "Thoughts are things" has become a sort of platitudinous by-word, through its constant repetition, until it is repeated rather more as a joking warning, than a statement of Truth, worthy of deep examination and understanding. So, let us see what we can find in these words which will assist us, one and all, into bringing about more rapidly the New Age of Brotherhood, for which we all ardently wish; and in which we apparently seem unable to assist. If we can understand the peculiar Power of Thought, we can make tremendous strides toward bringing about a more rapid awakening in the hearts of all.

The suggestion is put forth here to try a very simple experiment: Sit down quietly with pen and paper. Take 15 minutes and jot down every thought you have, as you realize it. Then go over your list. If you have previously under-estimated the Power of Thought, you will perhaps be appalled at the thoughts which you, as an individual, have sent forth! A thought of fear, illness, suspicion, accident, or other negation may be amplified and sent forth again by every Human Sensitive Receiver who "picks it up"! This is a True Statement, which you will be able to prove to your own individual satisfaction! Does this open a new door in your consciousness?

In understanding Thought, we have made startling discoveries. For instance, we refer to another statement repeated extensively by the Brothers: "When the consciousness

of Mankind is raised sufficiently, we can then come in great numbers to assist Mankind into the glorious New Age which is awaiting." Think! A New Age, when man will love man; when man will no longer be a beast of burden which he now finds himself, surrounded by modern conveniences which he can never enjoy because he is so busy paying for them. The fully established New Age will rise above such things, for there will be FREE ENERGY, not energy bought so dearly as it is now purchased. Think! If learning thought control can bring these things about, is it not worthwhile to understand all that we can about it?

In understanding "Thought", we have learned that certain brain cells have specialized jobs. One special set can pick up or receive thoughts sent out by another. The thoughts so received are sent out again, or re-broadcast again, with more power. These thoughts are repeatedly picked up and sent out again, over and over, until there is generated a powerful force.

There it stands. If the thought is constructive, a great tide of new awakening results. Likewise, if it is a destructive thought, then destruction in many ways may result. Discord, death, earthquake, or another form of disaster may come to pass. Thus are predictions of things brought into focus! But, there is a higher set of brain cells, which may be activated through understanding, which open the gates of the mind to Divine Thought, wherein no thought of negation can find lodging! These cells have the same power of receiving impressions, but instead of re-broadcasting an alarming thought, they blot it out with one of Harmony, Uplift, and Joy.

There are people all over the Earth who have learned this through their own experiencing. They are now trained, sensitive receivers. When a thought of impending disaster is picked up, these individual human

## ON THOUGHT (cont'd)

beings replace the thought with one of Peace, Love, Brotherhood, Stability, Balance, and Harmony. They Broadcast this with tremendous power.

So you may understand how much discord and disaster has been averted, and how much MORE can be averted with your help! For once you discover the Power Within Yourself, you will be given wonderful "weapons of light" by our Brothers, who have long since learned these lessons, and who await your reaching out and up to give you their assistance and understanding.

Do you see how our Earth, which we love so dearly, can be brought into PERFECT UNIVERSAL RYTHM? Is it not worthwhile to cultivate this garden in the brain? For we are all presented with these selective specialized brain cells on our arrival here on Earth. TRY THIS, and then, indeed, you will come to realize the true significance of the sadly frayed words, "Thoughts ARE Things"!

### BOOK REPORT (cont'd from p. 11)

live on with no volition. While the White Brotherhood has found means of helping many souls ascending under unfavorable circumstances, including those who die in infancy; they have found no saving agency for minds of narcotic victims. Brandon pleads for us here to crush out this evil.

Human Love is spoken of as the greatest blessing known to the race, more nearly approaching Divinity than any other human experience. "Only love can interpret one soul to another." The Masters consider mating of human beings as the most important of all matters concerning the Race. Perfect mating is described as that between a male and female possessing the same

wave length. In their studies the Brotherhood has developed a process by which perfectly matched souls on their plane can be found and united.

Last but not least, Brandon speaks of today's electronic and radio wave developments as bringing closer the day when the two planes may communicate easily with each other. He expresses hope that a mechanism will be perfected that can be used automatically. "It is possible and will doubtless be the next step after television."

### "Confidence"

*Believe in me...I ask you dear  
Have confidence...then I'll be near  
Trust me when...I say it's so  
Because my dear...you surely know  
It's to you alone...I will be true  
Sincerest faith...will see me thru  
If you really love me...fail not to see  
That you must...believe in me !!!*

# 14 MORE SIGHTINGS

From The Open Letter, December, 1960: Cape-town, South Africa, Nov. 10 (AP) - A fireball that turned night to day over a wide area of Cape Province Oct. 11 was three to four miles in diameter and exploded twice says Dr. David S. Evans, chief assistant at the Cape Royal Observatory here. Evans investigated 120 reports on the fireball. The pilot of an aircraft said the meteoric explosion grew to a size four times that of the setting sun. Residents of Laingsburg said the town was brilliantly lit with a blue-green light, and that there was a loud crackling, followed by what sounded like a dozen dynamite explosions

From the November bulletin issued by the Cosmon Research Foundation, Gloria Lee, Director:

There has been a major increase in saucer sightings and as you know no official word about it. It's surprising how many people have been continuing to have dreams about seeing hundreds of saucers in our skies. This is a psychic preparation for the mass demonstration.

## TRY THIS

In the December 1960 bulletin from the Circle of Three written by Claudas, she asks all those reading her words to repeat aloud once daily the following message received by Sue Anne Gerlach, holding the thought while doing so that its stirring words will draw to us from all

planes and all friendly worlds those who will work with us to open men's minds to Truth, Beauty, and Brotherhood:
